KEY VOTES 109th CONGRESS

House of Representatives:

1. **House Vote on Association Health Plans (H.R. 525)** (ANA OPPOSED)
On July 26, 2005, the House passed H.R. 525, the ANA-opposed "Small Business Health Fairness Act." HR 525 establishes rules governing Association Health Plans (AHPs). These group health plans, whose sponsors are trade, industry, professional, chamber of commerce, or similar business associations, would allow small employers to band together to purchase employee health coverage exempt from state-level protections. ANA opposed the bill because AHPs would remove guarantees of patient access to Advanced Practice Registered Nurses (APRNs), and harm consumers. 36 Democrats joined the entire Republican Caucus in voting to pass H.R. 525.
2. **House Vote on Budget Reconciliation (H.R. 4241 - later inserted into S. 1932)** (ANA OPPOSED)
According to the non-partisan Congressional Budget Office (CBO), the bill would have contained gross cuts to national funding for Medicaid totaling more than \$12 billion over five years; and \$50 billion over ten years. 50% of the \$12 billion in gross Medicaid cuts over five years (\$6.4 billion) would have come directly from changes that increase out-of-pocket expenses for Medicaid beneficiaries; 58% of the \$50 billion in gross reductions over 10 years (\$29.6 billion) comes from these changes. These direct cuts to benefits include the following:
 - **Changes in Asset-Transfer Rules for Nursing Home Care:** The House bill would change the current time that the Medicaid asset transfer penalties are applied: from the time that the assets transfer takes place to the time at which the beneficiary applies to Medicaid for nursing home care.
 - **Increased Cost Sharing:** The bill gives the states many new options to restrict benefit options and increase cost sharing for Medicaid beneficiaries.
3. **House Vote on Budget Reconciliation Conference Report (S. 1932)** (ANA OPPOSED)
The budget reconciliation bill contains \$5.6 billion in gross Medicaid cuts over five years, and \$22.6 billion over ten. The majority of these cuts will fall directly on vulnerable Medicaid beneficiaries who will be faced with dramatically higher out-of-pocket expenses. These expenses include \$10 billion in new co-payments, premiums and deductibles over ten years. Disturbingly, the Congressional Budget Office plainly states that 80% of this \$10 billion in savings will result from Medicaid beneficiaries forgoing needed care. The conference agreement also contains \$6.1 billion in benefit reductions over ten years, and an additional \$6.4 billion in reduced payments for long term care.
4. **Final House Vote on Budget Reconciliation** (ANA OPPOSED)
The budget reconciliation bill contains \$5.6 billion in gross Medicaid cuts over five years, and \$22.6 billion over ten. The majority of these cuts will fall directly on vulnerable Medicaid beneficiaries who will be faced with dramatically higher out-of-pocket expenses. These expenses include \$10 billion in new co-payments, premiums and deductibles over ten years. Disturbingly, the Congressional Budget Office plainly states that 80% of this \$10 billion in savings will result from Medicaid beneficiaries forgoing needed care. The conference agreement also contains \$6.1 billion in benefit reductions over ten years, and an additional \$6.4 billion in reduced payments for long term care.

SENATE:

1. **Genetic nondiscrimination** **(ANA SUPPORTED)**
ANA supported legislation that would bar employers and insurers from discriminating against people based on their genetic profiles. The bill expands portions of the 1996 Health Insurance Portability and Accountability Act (PL 104-191), a law that protects the use and disclosure of individually identifiable health information.
2. **Smith-Bingaman Amendment to Protect Medicaid** **(ANA SUPPORTED)**
The Senate approved (52-49) this bipartisan amendment to protect the Medicaid Program from severe cuts in the Fiscal Year 06 Federal Budget Resolution. ANA strongly opposed the cuts and supported the amendment, sponsored by Sens. Gordon Smith (R-OR) and Jeff Bingaman (D-NM), which struck the Medicaid cuts from the Budget and calls for the formation of a Bipartisan Medicaid Commission to study reforms to the program.
3. **Senate Vote on Budget Reconciliation** **(ANA OPPOSED)**
The budget reconciliation bill contained \$5.6 billion in gross Medicaid cuts over five years, and \$22.6 billion over ten. The majority of these cuts would have fallen directly on vulnerable Medicaid beneficiaries who will be faced with dramatically higher out-of-pocket expenses. These expenses include \$10 billion in new co-payments, premiums and deductibles over ten years. The Congressional Budget Office estimated that 80% of this \$10 billion in savings will result from Medicaid beneficiaries forgoing needed care. The conference agreement also contains \$6.1 billion in benefit reductions over ten years, and an additional \$6.4 billion in reduced payments for long term care.
4. **Specter-Harkin Amendment to the FY 2007 Budget Resolution** **(ANA SUPPORTED)**
An amendment to the Fiscal Year 2007 Budget Resolution introduced by Sens. Arlen Specter (R-PA) and Tom Harkin (D-IA), designed to increase federal funding for critical health, education, training and low-income programs, passed in the U.S. Senate on by a vote of 73 to 27. The Specter/Harkin Amendment increases the budget authority for these programs by \$7 billion. If this amount is maintained through the final Budget Resolution negotiations, it would allow Appropriations Committees to increase funding for health and education programs, including the Nursing Workforce Development programs administered by the Department of Health and Human Services (Title VIII of the Public Health Service Act).
5. **Senate Cloture Vote on S. 1955** **(ANA OPPOSED)**
S. 1955 would have wiped away important health insurance protections and make health care coverage more expensive for older and unhealthy individuals. Millions of Americans would have lost coverage for such important primary and preventative care as: screenings for breast, cervical, colorectal and prostate cancer; well-child care and immunizations; contraception; emergency services; mental health; and diabetes supplies and education. In addition to the loss of these benefits, S. 1955 would have preempted mandates that guarantee access to Nurse Practitioners (32 states) Nurse Midwives (30 states) Nurse Anesthetists (17 states) and Psychiatric Nurses (18 states). This piece of legislation went far beyond the scope of the original Association Health Plan (AHP) legislation, and preempted state laws not just for newly created small groups (Small Business Health Plans- SBHPs), but for the individual, small and large group health insurance markets.
